He was grandsire of Lightsome, who sold in England for 255 guineas; Duchy 255 guineas; Milk Girl, 150 guineas; Margin, 80 guineas; and Smirk, 90 guineas. He was also grandsire of Eurotas 2454, test, 22 lbs. 7 oz.; Torfrida 3356, test 17 lbs. 64 oz.; and Pet Guilford 3377, rate of 18 lbs. 4½ oz.

FRED OF SHELBURNE 26628.

Dropped March 30, 1890.

Breeder, owner.

Dark fawn; color solid; black tongue and switch. A promising young bull, possessing the characteristics of his famous sire in a very marked degree.

Sire, MIDAS OF OXFORD 5986.

Dam, WAIF OF ST. LAMBERT 36738.

Midas of Oxford 5986 was full brother to Matilda 4th 12816, who gave for her owners, Messrs. Miller & Sibbey, Franklin, Pa., on moderate rations, 16,158½ lbs. of milk for the year ending April 6, 1888, and for the same time is believed, from tests aggregating 144 days in 11 different months, to have made fully 950 lbs. of butter.

Midas of Oxford's registered daughter, La Petite Mère 3d 12814, tested for butter, made 16 lbs. 9 oz. in seven days, without forcing.

Stoke Pogis 1259, imp., was also the sire of Stoke Pogis 3d, who sired 24 cows tested for butter, averaging 19 lbs. 15½ oz. Among these are the noted cows Mary Anne of St. Lambert and Ida of St. Lambert.

Rioter 746 E. H. B. was great-grandsire of Stoke Pogis 3d and Violet 3d, who has a record of 15 lbs. 8 oz. He was grandsire of Lightsome, who sold in England for 255 guineas; Duchy, 255 guineas; Milk Girl, 150 guineas; Margin, 80 guineas; and Smirk, 90 guineas. He was also grandsire of Eurotas 2454, test 22 lbs. 7 oz.; Torfrida 3596, test 17 lbs. 6½ oz.; and Pet Guilford 3377, rate of 18 lbs. 4½ oz.

The dam, grandam, great-grandam, and great-great-grandam of Matilda 3288, imp., were 17-lb. cows.

Waif of St. Lambert is pure St. Lambert; no outer cross. She is of the blood elements of Mary Anne of St. Lambert, 81½ per cent.; of Ida, Allie, Diana, and Cowslip of St. Lambert, each 50½ per cent.; she has Stoke Pogis 3d, 37½ per cent.

Regarding Rioter's Pride 11694, Mrs. E. M. Jones writes: "I have had but one of his daughters to come in milk. She was a perfect type of a dairy cow, with an extra large and perfect udder. She gave at exactly two years old 14 quarts of milk a day, and tested 14 lbs. of butter in 7 days."

Girl of St. Lambert 20423, Waif'a dam, was a prize winner in her class and a member of the Gold Medal Herd at Ottawa in 1884. She gave 16 quarts of milk a day with first calf for Mrs. Jones.

Lord Lisgar 1066 (son of Victor Hugo 197) was sire of the following list:

Sire, OVER LAKE POGIS 14791.

Dam, WAIF OF ST. LAMBERT 36738.

Over Lake Pogis 14791 by Midas of Oxford 5986, full brother to Matilda 4th 12816, who gave for her owners, Messrs. Miller & Sibley, Franklin, Pa., on moderate rations, 16,153$^{\frac{1}{2}}$ lbs. of milk for the year ending April 6, 1886, and for the same time is believed, from tests aggregating 144 days in 11 different months, to have made fully 950 lbs. of butter.

Midas of Oxford's registered daughter, La Petite Mère 3d 12814, tested for butter, made 16 lbs. 9 oz. in seven days, without forcing.

Stoke Pogis 1259, imp., was also the sire of Stoke Pogis 3d, who sired 24 cows tested for butter, averaging 19 lbs. 15$^{\frac{1}{2}}$ oz. Among these are the noted cows Mary Anne of St. Lambert and Ida of St. Lambert.

Rioter 746 E. H. B. was great-grandsire of Stoke Pogis 3d, and Violet 3d, who has a record of 15 lbs. 8 oz. He was grandsire of Lightsome, who sold in England for 255 guineas; Duchy, 255 guineas; Milk Girl, 150 guineas; Margin, 80 guineas; and Smirk, 90 guineas. He was also grandsire of Eurotas 2454, test 22 lbs. 7 oz.; Torfrida 3596, test 17 lbs. 6$^{\frac{1}{4}}$ oz.; and Pet Guilford 3377, rate of 18 lbs. 4$^{\frac{3}{4}}$ oz.

The dam, grandam, great-grandam, and great-great-grandam of Matilda 3238, imp., were 17-lb. cows.

Waif of St. Lambert is pure St. Lambert; no outcross. She is of the blood elements of Mary Anne of St. Lambert, 81$^{1}{\frac{1}{2}}$ per cent.; of Ida, Allie, Diana, and Cowslip of St. Lambert, each 56$^{1}{\frac{1}{4}}$ per cent.; she has Stoke Pogis 3d, 37$^{3}{\frac{1}{4}}$ per cent.

Regarding Rioter's Pride 11694 Mrs. E. M. Jones writes: "I have had but one of his daughters to come in milk. She was a perfect type of a dairy cow, with an extra large and perfect udder. She gave at exactly two years old 14 quarts of milk a day, and tested 14 lbs. of butter in 7 days."

Girl of St. Lambert 20423, Waif's dam, was a prize winner in her class and a member of the Gold Medal herd at Ottawa in 1884. She gave 16 quarts of milk a day with first calf for Mrs. Jones.

GEORGIE OF SHELBURNE 68268.

Dropped November 7, 1889.
Breeder, owner.

Color solid; tongue and switch black.

Sire, MIDAS OF OXFORD 5986.
Dam, BLOSSOM POGIS 29747.

Midas of Oxford 5986 was full brother to Matilda 4th 12816, who gave for her owners, Messrs. Miller & Sibley, Franklin, Pa., on moderate rations, 16,153$\frac{3}{4}$ lbs. of milk for the year ending April 6, 1886, and for the same time is believed, from tests aggregating 144 days in 11 different months, to have made fully 950 lbs. of butter.

Midas of Oxford's registered daughter, La Petite Mère 3d 12814, tested for butter, made 16 lbs. 9 oz. in seven days, without forcing.

Stoke Pogis 1259, imp., was also the sire of Stoke Pogis 3d, who sired 24 cows tested for butter, averaging 19 lbs. 15$\frac{1}{4}$ oz. Among these are the noted cows Mary Anne of St. Lambert and Ida of St. Lambert.

Rioter 746 E. H. B. was great-grandsire of Stoke Pogis 3d, and Violet 3d, who has a record of 15 lbs. 8 oz. He was grandsire of Lightsome, who sold in England for 255 guineas; Duchy, 255 guineas; Milk Girl, 150 guineas; Margin, 80 guineas; and Smirk, 90 guineas. He was also grandsire of Eurotas 2454, test 22 lbs. 7 oz.; Torfrida 3596, test 17 lbs. 6$\frac{3}{4}$ oz.; and Pet Guilford 3377, rate of 18 lbs. 4$\frac{1}{4}$ oz.

The dam, grandam, great-grandam, and great-great-grandam of Matilda 3238, imp., were 17-lb. cows.

Blossom Pogis 29747 was by Minnie's Duke of Darlington 6934, who was believed to be one of the best representative bulls in service of the now noted Rioter-Stoke Pogis blood. Besides his individual excellence, he is believed to represent in his blood more noted butter and milk records than any bull living, among whom are the following:

- Eurotas 2454, 778 lbs. of butter in 11 months and 6 days.
- Mary Anne of St. Lambert 9770, 36 lbs. 12$\frac{3}{4}$ oz. of butter in 7 days.
- Europa 178, 18 quarts of milk per day.
- Alpena 177, 24 quarts of milk per day, and tested for butter, on grass only, at the rate of 24$\frac{1}{2}$ lbs. per week.
- Bomba 10330, 21$\frac{3}{4}$ lbs. of butter in 7 days; half-sister to Minnie's Duke of Darlington.
- Minnie of Oxford 12896, his dam, 18 quarts of milk per day, and 16 lbs. of butter per week.
- Marjoram 3239, 16 lbs. of butter in 7 days.
- Mattie, 17 " " " "
- Matilda 3238, 17 " " " "
- Gipsy, 17 " " " "
- Violet 3d, 15$\frac{3}{4}$ " " " "

As evidence of the estimation in which Minnie's Duke of Darlington is held, a one-half interest in him was sold, Fall of 1883, for $5,000 cash and a further consideration in services.

Marietta Pogis 41198, dam Blossom Pogis 2947, whose sire Minnie’s Duke of Darlington 6934, is believed to be one of the best representative bulls in service of the now noted Rieter Stoke Pogis blood. Besides his individual excellence, he is believed to represent in his blood more noted butter and milk records than any bull living, among whom are the following:

- Eurotas 2454, 778 lbs. of butter in 11 months and 6 days.
- Mary Anne of St. Lambert 9770, 36 lbs. 19½ oz. of butter in 7 days.
- Europa 175, 18 qts. of milk per day.
- Alphea 171, 34 qts. of milk per day, and tested for butter, on grass only, at the rate of 34½ lbs. per week.
- Bomba 10330, 21½ lbs. of butter in 7 days; half sister to Minnie’s Duke of Darlington.
- Minnie of Oxford 12806, his dam, 18 qts. of milk per day, and 16 lbs. of butter per week.
- Marjoram 3239, 16 lbs. of butter in 7 days.
- Mattie, 17 " " " "
- Matilda 3238, 17 " " " "
- Gipsy, 17 " " " "
- Violet 3d, 15½ " " " "

As evidence of the estimation in which Minnie’s Duke of Darlington is held, a one-half interest in him was sold Fall of 1883, for $5,000 cash and a further consideration in services.

THANKFUL BLOSSOM 17153.

Dropped December 19, 1881.

Breeder, owner.

Light fawn; black fringe on ears; black tongue and switch.

Sire, LINDEN BUTTER BOY 5982.

Dam, LA PETITE MÈRE 3d 12814.

Lady Mary 1148 was an extensive prize-winner, and milked 18 qts. to 20 qts. in flush, and had over 80 descendants that made over 14 lbs. in seven days.

Midas of Oxford 5986 was full brother to Matilda 4th 12816, who gave for her owners, Messrs. Miller & Sibley, Franklin, Pa., on moderate rations, 16,153½ lbs. of milk for the year ending April 6, 1886, and for the same time is believed, from tests aggregating 144 days in 11 different months, to have made fully 950 lbs. of butter.

Midas of Oxford's registered daughter, La Petite Mère 3d 12814, tested for butter, made 16 lbs. 9 oz. in seven days, without forcing.

Stoke Pogis 1259, imp., was also the sire of Stoke Pogis 3d, who sired 24 cows tested for butter, averaging 19 lbs. 15½ oz. Among these are the noted cows Mary Anne of St. Lambert and Ida of St. Lambert.

Rioter 746 E. H. B. was great-grand sire of Stoke Pogis 3d, and Violet 3d, who has a record of 15 lbs. 8 oz. He was grandsire of Lightsome, who sold in England for 255 guineas; Duchy, 255 guineas; Milk Girl, 150 guineas; Margin, 80 guineas; and Smirk, 90 guineas. He was also grandsire of Eurotas 2454, test 22 lbs. 7 oz.; Torfrida 3586, test 17 lbs. 6½ oz.; and Pet Guilford 3377, rate of 18 lbs. 4½ oz.

The dam, grandam, great-grandam, and great-great-grandam of Matilda 3238, imp., were 17-lb. cows.

This pedigree will bear close inspection, as every bull is the sire of one or more tested cows, and every cow is either a tested cow or the dam of one or more tested cows, or both. La Belle Petite 3472 tested 17 lbs. 8 oz. for John H. Small, York, Pa. La Petite Mère 5470, dam of La Petite Mère 3d and La Belle Petite, above mentioned, was also dam of La Petite Mère 2d 12810, 16 lbs. 7 oz. for Miller & Sibley, Franklin, Pa.

Minnie’s Duke of Darlington 6934 is believed to be one of the best representative bulls in service of the now noted Rioter-Stoke Pogis blood. - Eurotas 3454, 778 lbs. of butter in 11 months and 6 days.
- Mary Anne of St. Lambert 3770, 36 lbs. 12 1/2 oz. of butter in 7 days.
- Europa 176, 18 quarts of milk per day.
- Alphea 171, 24 quarts of milk per day, and tested for butter, on grass only, at the rate of 24 1/2 lbs. per week.
- Bomba 10330, 21 1/4 lbs. of butter in 7 days; half-sister to Minnie’s Duke of Darlington.
- Minnie of Oxford 12806, his dam, 18 quarts of milk per day, and 16 lbs. of butter per week.
- Marjoram 3239, 16 lbs. of butter in 7 days.
- Mattie, 17 " " " "
- Matilda 3238 17 " " " "
- Gipsy, 17 " " " "
- Violet 3d, 15 1/2 " " " "

As evidence of the estimation in which Minnie’s Duke of Darlington is held, a one-half interest in him was sold, Fall of 1883, for $5,000 cash and a further consideration in services.
